**"M**EAN GIRLS" star Lindsay Lohan is a mean girl!

That's the inside word from sources close to the just-turned-18 actress, who's so red-hot she's now commanding \$7.5 million a movie — and is quickly gaining Britney Spears-like status with her wild shenanigans.

"Lindsay can be a real nasty piece of work — a spoiled, jealous and at times vicious brat," an insider told *The ENQUIRER*.

## UNDERAGE BOOZING

Lindsay spends most of her spare time with her 24-year-old boyfriend, "That '70s Show" star Wilmer Valderrama, and hanging out in over-21 clubs — where she routinely engages in underage drinking, sources say.

"Lindsay parties like there's no tomorrow — she even had her 18th birthday party at an over-21 club," the insider disclosed.

"Lindsay drinks alcohol — she doesn't care that she's underage. And alcohol doesn't improve her temperament, it only makes her more belligerent!"

At one of Lindsay's favorite Los Angeles restaurants, Koi, "the service staff hates to wait on her because she's such an obnoxious little monster — but it also gives us something to laugh at after she leaves," said a source at the

eatery. "Lindsay's only 18 so we won't serve her alcohol, yet she always puts up a fight.

"I asked for a drink! And bring my friends drinks too!" she recently yelled at a waiter, and wouldn't let up.

"While Lindsay was carrying on, other diners couldn't help but notice her. Finally Lindsay turned to some middle-aged men at another table and said, 'What's wrong with you? Haven't you ever seen a celebrity before?'"

"The guys just rolled their eyes. "Later, they picked up the bill for Lindsay's table and left her a note saying, 'Use the money you just saved on dinner to buy some charm lessons. You certainly need some.'"

"A few days later, Lindsay went back to Koi with a stack of photos of herself, and was standing at the door offering to sign them for people. But

no one really wanted one — people go to Koi to eat, not to attend a Lindsay Lohan fan club meeting!"

## MAKING ENEMIES

An industry source revealed to *The ENQUIRER*: "Lindsay is alienating people at a record pace — even the people who are supposed to be her friends.

"She's managed to make enemies of her former close pal

## EGO PROBL

And as *The ENQUIRER* reported recently the came to blows in Las had to be separated.

"Lindsay's also at o another close friend O.C.' star Mischa B because Lindsay mouthed her," said industry source.

"Mischa's TV and movies," Lindsay boar to some pals. "Every knows I'm the big star."

"Now she and Mi are barely talking."
