

Ex-housekeeper's shocking claim:

'MEL B IS THE WORST MOTHER I EVER SAW!'

- She ignores Eddie's baby
- Endless string of nannies
- Smokes around her kids

the food in the house is her special diet food, which she forbids her children and household help to eat," said Tonia.

"There is hardly any normal food in the refrigerator, and Mel's older daughter is often hungry and complaining that there's nothing to eat.

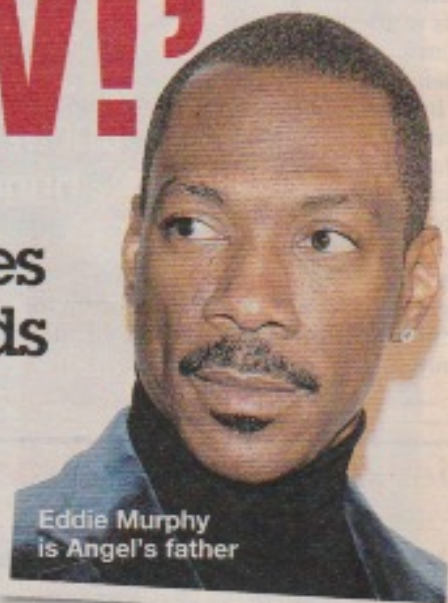

"When I spent the four days sleeping at the house, I had to dig into my own pocket to buy food for us. Mel didn't even leave me with money for that."

The housekeeper ordered pizza to feed herself and the kids, she says.

Tonia said that Mel is not only neglectful to the kids, but also to her little Yorkie puppy, which she keeps caged.

"WHEN MEL WAS HOME, and if he barked to be let loose, she'd scream at him to shut up – and then tell me she should have his voice box removed!" revealed Tonia.

"She was so cruel to that little dog. I finally let him out one day, and he was so

Eddie Murphy is Angel's father

excited that he ran around the house like crazy – it was the saddest thing."

Tonia also revealed that Mel chooses her clothes according to "what makes her look like a mother" to help her custody and money battle with Eddie.

"Once, she was all dressed and ready to go, then said: 'Oh, I can't wear this, I don't look motherly enough.'

"As far as I know, Eddie never sees the baby, and I don't wonder why – he must hate her. It's so obvious she's obsessed with finding ways to get more child support from him.

"I once heard her on the telephone yelling to someone: 'Eddie better not mess with me! He better step up and pay me big time!'"

Mel's publicist Liza Anderson calls Tonia's assertions "ridiculous" and says there's no truth to them, but Tonia stands by her claims.

"I really think Eddie should be aware of how poorly Angel is taken care of," she said.

"He should know what's going on with his own child."

Mel B and Stephen out in West Hollywood on Aug. 29
