

**AUG. 28**

Kate at the Chateau Marmont with Jack Huston. Below, they leave together in the same car

evening with Jack stretched into the early morning hours.

"Kate, Jack and a friend left the bar together around 1 a.m.," revealed the eyewitness. "As they waited for the valet to bring the car, Jack came up behind Kate, wrapped his arms around her and gave her a tender kiss.

"And she didn't resist one bit."

But what a difference 24 hours makes! The following day, Kiss-Me-Kate and steady beau James were spotted embracing during an L.A. shopping spree.

"Kate and James have always given the impression they are very much in love," said the source. "But judging by the chemistry between Kate and Jack, she seemed like she'd be pretty easily tempted into a romance with him."

# '90210' star's WEIGHT PLUMMETS as career soars

## Worried pals consider intervention for Shenae Grimes

**S**TICK-THIN "90210" star Shenae Grimes has Hollywood asking whether she could be suffering from an eating disorder.

The 18-year-old brunette – who plays Annie Wilson in the hit series – seems to eat very little, and worried friends are considering staging an intervention, sources say.

"Shenae is 5-foot-3 and looks like she weighs about 90 pounds, but she just won't eat," an insider working on the new CW series told The ENQUIRER.

"On set, she sometimes picks at a few vegetables during breaks, but she often looks as if she's about to collapse."

The Canadian-born actress first hit it big playing Darcy Edwards in the acclaimed series "Degrassi: The Next Generation," and insiders predict she'll be the next "90210" breakout star.

"But people working on the show are worried about Shenae, and talking about whether they should get her family involved in an intervention," added the insider.

To make matters worse, the teen actress seems to have replaced food with cigarettes, said another source.

"We'll go out to dinner, and Shenae will just sit there chain smoking," the source said. "Her friends are always pushing her to eat, and at times Shenae will appease them by using her fork to eat a few vegetables, then she'll immediately put her fork down."

Concluded the set insider: "Shenae could easily become a big star – but I'm worried about her weight."
